

Our Commitment to the Environment

Allegra Environmental Scorecard

We use our resources wisely.

- We use direct-to-plate printing, soy-based inks, recycled paper, emulsion aggregation (EA) toner, and conscientious print management.
- At every opportunity, we use recycled products rather than raw materials.

We make smart choices.

- We work with our paper suppliers on environmental stewardship.
- We consider totally chlorine free (TCF) and elemental chlorine free (ECF) paper choices.
- We use local suppliers where possible to minimize the environmental impact of long-distance shipping.

We control our waste.

- We run similar jobs together to reduce waste and conserve energy.
- We reuse folders, envelopes, toner cartridges, and packaging materials.

We educate our clients.

- We promote the green products and business practices we offer.
- We offer clients environmentally friendly options.
- We help clients understand the nature of green printing to produce a greener product.

We participate in recycling programs.

- We reduce waste and recycle materials every day.
- We recycle paper, metals, oil, and plastic.
- We lessened our energy use with Energy Star equipment, night temperature setbacks, and lighting monitoring.

In recognition of our environmental commitment, Allegra is designated a **Michigan Great Printer** by the Michigan Department of Environmental Quality and a **Waste Knot Award Partner** by the Washtenaw County Department of Planning and Environment.
